## ENGE 1320 Communications for English Majors II

**Second Term 2022**

**Professor Ron Darvin** | ron.darvin@cuhk.edu.hk | 3943.7020  
Consultations by appointment

This course builds on the foundational communication skills introduced in ENGE 1310 and helps you develop the competencies necessary to conduct effective research. It examines the existing structures and conventions of various print and digital genres such as journal articles, blogs, infographics, and videos. It also discusses different patterns of development such as definition, comparison/ contrast, cause / effect, classification, and the importance of maintaining an appropriate register and style. To help you produce and consume knowledge in creative and critical ways, you will construct an abstract, an annotated bibliography, and a research essay that discusses a concept or issue in applied linguistics. You will also learn to persuade audiences to pursue a specific action through an oral presentation and a video. These texts will be constructed for real world audiences and will involve the use of various multimodal resources. Through a process-oriented approach, you will be producing outlines and drafts of these tasks, get feedback, and learn writing strategies such as signposting, using signal phrases, and constructing parallel structures. Recognizing the increasing importance of technology in producing and consuming knowledge, this course also discusses the use of various digital tools such as search engines, reference management software, and video editing platforms.

### Learning Outcomes

1. Prepare an abstract and annotated bibliography that provides an overview of relevant sources and demonstrates connections between them

### Grade Descriptors

**Grade A / Excellent / 4.0:** Outstanding performance on ALL learning outcomes. Demonstrates the ability to synthesize and apply the principles or skills learned in the course in a manner that would surpass the normal expectations at this level and typical of standards that may be common at higher levels of study. The 'A' is reserved for truly excellent work that exceeds the level expected for the majority of students and are expected to be achieved only by a small minority

**Grade A- / Very Good / 3.7:** Generally outstanding performance on ALMOST ALL learning outcomes. Demonstrates the ability to synthesize and apply the principles or skills learned in the course in a manner that would fully fulfill the normal expectations at this level and occasionally reaches standards that may be common at higher levels of study.

**Grade B+ / Good (Plus) / 3.3:** HIGH performance on all learning outcomes, OR HIGH performance on some learning outcomes which compensates WELL for slightly less satisfactory performance on others, resulting in overall substantial performance. Demonstrates the ability to apply WELL the principles or skills learned in the course in a comprehensive manner that would sufficiently fulfill the normal expectations at this level WELL.

**Grade B / Good / 3.0:** SUBSTANTIAL performance on all learning outcomes, OR SUBSTANTIAL performance on some learning outcomes which compensates for slightly less satisfactory performance on others, resulting in overall substantial performance. Demonstrates the ability to apply the principles or skills learned in the course in a MORE COMPREHENSIVE manner that would sufficiently fulfill the normal expectations at this level.

**Grade B- / Good (Minus) / 2.7:** GOOD performance on all learning outcomes, OR GOOD performance on some learning outcomes which compensates for slightly less satisfactory performance on others, resulting in overall substantial performance. Demonstrates the ability to apply the principles or skills learned in the course in a COMPREHENSIVE manner that would sufficiently fulfill the normal expectations at this level.

**Grade C+ / Adequate (Plus) / 2.3:** VERY ADEQUATE performance on the majority of learning outcomes. Demonstrates the ability to apply the principles or skills learned in the course in a SOMEWHAT SUSTAINED manner that would meet the basic requirement at this level.

**Grade C / Adequate / 2.0:** ADEQUATE performance on the majority of learning outcomes. Demonstrates the ability to partially apply the principles or skills learned in the course in a manner that would meet the basic requirement at this level.

**Grade C- / Adequate (Minus) / 1.7:** SOMEWHAT ADEQUATE performance on A NUMBER OF learning outcomes. Demonstrates the ability to SOMEWHAT apply the principles or skills learned in the course in a manner that would meet the BARE basic requirement at this level.

**Grade D+ / Pass (Plus) / 1.3:** BARELY SATISFACTORY performance on A FEW learning outcomes. Addresses the task inadequately by meeting the basic requirement at this level only in some areas while responding minimally with possibly tangential content in others.

**Grade D / Pass / 1.0:** ALMOST BARELY SATISFACTORY performance on VERY FEW learning outcomes. Addresses the task inadequately by meeting the basic requirement at this level only in very few areas while responding very minimally with possibly tangential content in others.

**Grade F / Failure / 0.0:** Unsatisfactory performance on a number of learning outcomes, OR failure to meet specified assessment requirements. Fails to address the task and likely does not understand what the task requires. In other words, the work completely misses the point.

### **Course Feedback and Evaluation**

At the end of the course, you will be asked to complete Course Evaluations for both the lectures and tutorials. This information is highly valued and is used to revise teaching methods, tasks, and content. During the term, you are also strongly encouraged to provide feedback on the course via email or meetings with the professor or tutors.

Midway through the term, you will also be asked to provide feedback via a brief questionnaire on the course content, teaching methods, and tasks in order to determine if adjustments need to be made for the remainder of the term.

### **Academic honesty**

Each student is responsible for his or her conduct as it affects the university community. Academic dishonesty, in whatever form, is ultimately destructive of the values of the CUHK and is unfair and discouraging to the majority of students who pursue their studies honestly. Scholarly integrity is required of all members of the university. Details regarding CUHK policy and regulations on honesty in academic work, and the disciplinary guidelines and procedures applicable to breaches of such policy and regulations can be found at <http://www.cuhk.edu.hk/policy/academichonesty/>. With each assignment, students will be required to submit a statement that they are aware of these policies, regulations, guidelines and procedures. Text-based assignments will need to be submitted to Veriguide, and the statement in the form of the receipt will be issued by the system.
